

Tuscania

Velatura Silossanica (matt), Velatura a Cera Argento (silver wax) and Velatura a Cera Oro (gold wax), for interiors.

GENERAL FEATURES

Tuscania Velatura Silossanica, Tuscania Velatura a Cera Argento and Tuscania Velatura a Cera Oro are a range of products for the decoration of interior walls.

Tuscania Velatura Opaca is an acrylic-siloxane finish made of special charges and additives, able to create a matt and deep effect

Tuscania velatura a Cera Argento and **Oro** are finishes made of metallic charges and special waxes – gold and silver.

USES

Tuscania is easy to apply and permits both professional applicator and private unprofessional customers to achieve high-quality visual and tactile effects that gather together colours, shapes and lights.

IDENTIFICATION FEATURES

Binder nature: acrylic- siloxane polymer, waxes in emulsion. Density:

Tuscania Velatura Silossanica (matt): 1,04 +/- 0,05 g/ml Tuscania Velatura a Cera Argento (Silver wax): 1,06 +/- 0,05 g/ml

Tuscania Velatura a Cera Oro (Gold wax): 1,06 +/- 0,05 g/ml

PERFORMANCES

The application of **Tuscania** is easy and practical thanks to the use of a glove.

The versatility of **Tuscania** and the application with proper tools permits to achieve pleasant effects of the surface.

DILUTION

Tuscania: ready for use, dilution with max. 5% of water.

WARNINGS

Mix the product properly before the coloration and application. Do not apply on new/fresh substrate; wait a maturation time of the least 4 weeks.

SUBSTRATE PREPARATION AND APPLICATION

(Referred to environmental conditions T=25°C, UR=60%)

The substrate must be perfectly dry, dust-free, with no humidity and salt stains.

Resurface or consolidate the surface with specific products if necessary.

In case of mould, treat the surface with suitable specific products. Brush or remove any efflorescence and old peeling paint.

Higher layers of old lime-based paint and tempera paint must be removed.

Brush out dust, smog or other deposits before the application. In case of non-homogeneous or chalky surfaces, apply one layer of **Decofix** (micronized wall sealer) diluted, with a brush.

Novacolor s.r.l

Via U. Aldrovandi, 10 - 47122 FORLÍ (IT) T: +39 0543 401840 - F: +39 0543 414585 www.novacolor.it - info@novacolor.it Over dry and compact substrates, apply one layer of **Novaprimer** (water-based acrylic pigmented primer), diluted, with a brush or with a roller.

Over dry primer apply one layer of **Novalux I**, diluted, with a roller or with a brush.

Once the substrate is dry, apply a second layer of **Novalux I**, diluted, as previously described.

Drying time: 24 hours approx. depending on the kind of substrate, absorption rate and environmental conditions.

Once the substrate has dried out, apply one layer of **Tuscania**, ready to use, with glove or sponge trowel in circular movements.

After at least 8 hours, apply a second layer of **Tuscania**, following the same procedure.

Drying time: 24 hours approx. depending on the kind of substrate, absorption rate and environmental conditions.

RECOMMENDATIONS

During the entire application process, the product must protected from cold and high heat changes.

Do not apply with air, substrate and product temperature lower than +5°C and higher than +35°C, nor under direct sun light, nor on superheated surfaces (even if already in shadow). Environmental humidity must be <75%; substrate humidity must be <10%.

It is advisable to complete each work with materials from the same batch of production. When using multiple batches, it is recommended to remix the various products together to avoid slight differences in shading.

For the correct use, dilution and application of the products here mentioned, consult their respective technical data sheets.

During the preparation of the substrate and application of the products, it is recommended the correct use of tools and individual protective devices (dpi).

TOOLS CLEANING

With water, immediately after use.

YIELD

Tuscania: 12-18 m²/l, in two layers, depending on the kind of substrate and its absorption rate. It is advisable to determine the real yield with a preliminary test on the specific substrate.

COLOURS

Tuscania Velatura Silossanica, Tuscania Velatura a Cera Argento, Tuscania Velatura a Cera Oro and Tuscania colour collection.

PACKAGES

2,5l. packages.

R.I. / C.F. / P.I. 01466040407 R.E.A. Forlí Cesena 197104 Cap. Soc. € 104.000,00 i.v.

SHELF LIFE

The packaged product is guaranteed for 24 months, if stored in the original sealed packages and at the adequate temperatures.

SECURITY PROCEDURES

EU Directive 2004/42/CE: Tuscania (decorative effect coating) EU limit value for Tuscania (cat A/I): 200 g/I (2010) Tuscania contains maximum 200 g/I of VOC.
