- ◆ **VOC Fre**

puro

titanium and VOC free

IT Puro_Titanium & Voc Free di Novacolor è un prodotto concepito secondo l'innovativo «Green Approach» dell'azienda. Si tratta di un'idropittura minerale opaca per interni a base di polysilicato di potassio, che risulta inodore ed **esente da composti organici volatili (VOC) e Formaldeide**. Puro_Titanium & Voc Free utilizza un legante organico speciale derivato da biomassa, misurato tramite il processo *Biomass balance approach*. Inoltre, l'innovativo mix di cariche minerali al suo interno permette di raggiungere la copertura di un'idropittura **senza l'utilizzo di biossido di Titanio**. L'elevata traspirabilità e la natura alcalina aiutano a preservare le superfici dalla formazione delle muffe. Puro_titanium & VOC Free è attivo nella **riduzione della formaldeide** presente nell'ambiente circostante.

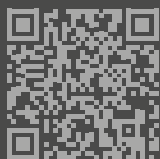

FR Puro_Titanium & Voc Free de Novacolor est un produit conçu selon l'innovante «Green Approach» de l'entreprise. Il s'agit d'une peinture minérale opaque à l'eau pour intérieurs à base de polysilicate de potassium, inodore et **sans composés organiques volatils (COV) ni formaldéhyde**. Puro_Titanium & Voc Free utilise un liant organique spécial issu de la biomasse, mesuré par *Biomass balance approach*. En outre, le mélange innovant de charges minérales à l'intérieur permet d'atteindre le niveau de couverture d'une peinture **sans addition de dioxyde de titane**. Sa haute respirabilité et sa nature alcaline aident à préserver les surfaces de la formation de moisissures. Puro_titanium & Voc Free effectue une action active en mesure de **réduire significativement la concentration de formaldéhyde** éventuellement présente dans l'air ambiant.

EN Puro_titanium & VOC Free by Novacolor is formulated in accordance with the innovative «Green Approach» of the company. It is an opaque mineral water-based paint for interiors, based on potassium polysilicate, odorless, and **free from formaldehyde and volatile organic compounds (VOC)**. Puro_titanium & VOC Free uses a biomass-balanced binder that helps to reduce the CO₂ emissions. Puro_titanium & VOC Free contains an innovative mix of mineral fillers that allow to reach the covering of a water-based paint **without using titanium dioxide**. High breathability and alkaline nature helps to preserve surfaces from mold formation. Puro_titanium & VOC Free actively **reduces the formaldehyde** concentration in the surrounding environment.

DE Puro_Titanium & Voc Free von Novacolor ist ein Produkt, das nach dem innovativen "Green Approach" des Unternehmens entwickelt wurde. Es ist eine opake mineralische Farbe für Innenräume auf der Basis von Polysilikat, geruchlos und **frei von flüchtigen organischen Verbindungen (VOC) und Formaldehyd** ist. Puro_Titanium & Voc Free verwendet einen speziellen organischen Binder aus Biomasse, gemessen nach dem Biomass Balance-Ansatz. Darüber hinaus ermöglicht die innovative Mischung von mineralischen Füllstoffen darin, die Abdeckung einer wasserbasierten Farbe **ohne den Einsatz von Titandioxid zu erreichen**. Hohe Atmungsaktivität und alkalische Eigenschaften tragen dazu bei, Oberflächen vor Schimmelbildung zu schützen. Puro_Titanium & VOC Free ist aktiv in der **Reduktion von Formaldehyd in der Umgebung**.
